

Rim-pang 1 n tuber (root) that branches like fingers (about turmeric, ginger); pizom; 2 a widely spaced (about toes).

rhizome (/ˈraɪzəm/ RY-zohm) is a modified subterranean plant stem that sends out roots and shoots from its nodes.

This word has no exact equivalent in Arabic. Some dictionaries refer to the meaning of "root," which in modern Arabic, for example, in botany, Rizhome is absorbed into الجذْمُور (Al-Jidhmur). There is also the word ساق أرضية (Saq Ardiyyah) which means "underground stem." In classical/literary Arabic, there are two metaphorical words with similar meanings: أصل (Ashl), which is the origin of the word "asli" in Indonesian; and عرق (Irq), which means "vein" and "root."

In the Quran, there is no equivalent word for rhizome, but there is a plant that is included in one type of rhizome, namely ginger, or زَنْجَبِيل, in QS. Al-Insan: 17, a heavenly drink. Ginger, like turmeric and various herbal ingredients, is traditionally considered to have health benefits.

That is another meaning of "Rhizome": a plant that spreads and heals.

Living Islam

Madani Fest serves as a platform for films, narratives, and ideas concerning issues within the Islamic world. The festival focuses on Islam in everyday life—as experienced by people across all social groups and strata in various parts of the globe.

Civic/Warga

Madani Fest revitalizes the meaning of *madani* as "civil order" or "civic life"—translations of the concept of "civil society." Community activation, citizen engagement, and the strengthening of the civic sphere serve as the festival's ongoing focus.

City

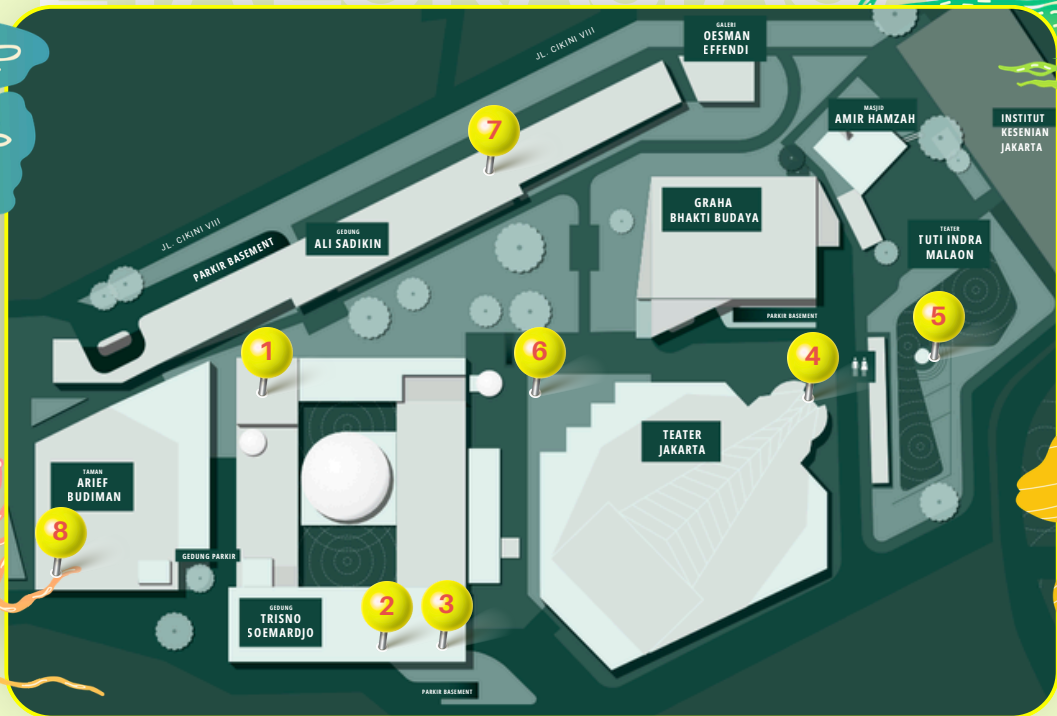

Madani Fest is a festival of ideas about the city, explored through the activation of space and movement (mobility) rooted in everyday urban life. This connects to the root of the word "madani"—shared with "madina"—which signifies "city" and "polis."

Civilization

Madani Fest also serves as a platform for exploring aspects of civilization—namely ethics, knowledge, and the arts—through discussions, workshops, masterclasses, exhibitions, and art performances.
